Corn is higher; No 2 mixed \$1.15.			

Superfluous Hair Now Removed Roots and All

(New and Improved Home Method)

A boon to women troubled with superfluous hair is the new pelacetic process. It is totally unlike the depilatory, electrical and other methods heretofore employed for the removal of hairy growth. It is the only thing that enables one to remove the hair completely—roots and all—in one's own home without the assistance of an expert. The result renders themselves for the user keep the hair roots from their own eyes.

A stick of pelacetic, with easy directions, can be had at any drugstore. Entirely harmless, it is easily used, safe, reliable, odorless and non-irritating. It is an instantaneous method, and so thorough that the hair never grows again. It is, therefore, bearing not the least evidence of its former disfigurement.—Adv.

FOR WOMEN

For over half a century DR. TUTT'S LIVER PILLS have been sold for the Liver.

Read the following from a woman of forty-eight: "I have used DR. TUTT'S PILLS for Bowel regulation many years. I am now convinced that they are also the best known regulator for other retarded female functions. I have told many of my friends and now none would be without them. A few days before, and you are all right."

ing, expensive refrigerating system makes it possible for us to control to a degree the temperature in the dough room of our bakery, no matter how much heat there may be outside. This is important to you because it means that bread made here is the sweetest, cleanest and purest that can be turned out. The large room where the doughs are mixed is kept at the proper temperature all year around. The air entering it is cooled and is supplied with just the proper degree of moisture.

The weather in the dough room, you see, is manufactured especially for it—just exactly right so that the doughs can be mixed under proper conditions and "rise" absolutely as they should—exact to the point—never too much, never too little.

***MERIT is Always Fresh
at the Grocers***

THE CAMPBELL BAKING COMPANY

Every part of the MERIT Bread Bakery is just as properly equipped for the work that is done here. Every detail has been studied. Thousands and thousands of dollars have been spent to insure the perfection of our product. Not only money, but much intelligent effort has been spent to keep up and better the quality we have striven for. Today we supply you with bread that absolutely stands alone in nutritive value, in taste, texture and cleanliness. The bakery that makes this bread is one of the highest efficiency and is foremost among industrial plants. Come and see it. There's much you will enjoy about seeing MERIT Bread made—there's a fascination in watching the marvelous big machines and you will appreciate very fully the cleanliness maintained.

*Announcing
the Re-creation
of*
ANHEUSER-BUSCH'S
FAMOUS
Budweiser

IT is the fixed policy of Anheuser-Busch to comply with every provision of public laws and regulations. That policy will be adhered to in the future as in the past. In view of the Act of Congress, effective October 29, 1919, we feel that our many friends and customers have the right to know how the Anheuser-Busch industrial plants will be utilized.

Our greater development plans include, among other new products, an additional cereal beverage to which we shall apply our well-known trade-name Budweiser. This beverage will be manufactured, in every detail, according to our original Budweiser process, and de-alcoholized to conform to Federal law. It will possess the genuine Budweiser flavor and quality.

Budweiser, re-created, will be manufactured from the choicest, most wholesome and nutritious cereals—and hops, noted for their tonic effects. It will be fully and maturely lagered, put up in sterilized, hermetically sealed, 12-ounce brown bottles, and pasteurized to insure its permanent purity and quality.

We guarantee that this Budweiser is bacteria free, will keep in any climate, and is healthful and nutritious.

We shall be ready to begin shipments by January 1, 1920.

Budweiser is manufactured and bottled exclusively at the plant of

ANHEUSER-BUSCH, ST. LOUIS, U.S.A.
